

Design Engineering's index for 1981

Assembly

Assembly ideas: innovative fasteners and methods	May p17
Engineering adhesives: new tools for the design engineer	May p24
Robots on the rise	Nov p21
Retaining rings eliminate hazardous sealing of hydrants and save money	Dec p33

Careers

Job hunting: the story behind manpower news ..	Jan p48
The 1981 job market for engineers	Mar p56
Job hunting: how to wait productively	May p60
Job hunting: what to do when opportunity knocks	Sep p52
Need you pay for job hunting assistance?	Nov p52

Design office

Computerized package speeds Canadair project	Feb p18
CAD/CAM: helping Canada to compete	Feb p20
Cushioning system helps the handicapped	Feb p24
Design office update: now and tomorrow	Feb p28
Driving down auto weight	Jun p24
Industrial design points the route to product recognition	Sep p12
A status report on CAD/CAM applications ...	Oct p83

Electrical and electronic

The changing world of electronics	Jan p16
Microprocessor controls weld passes	Jan p17
Electronic system measures accurately	Jan p19
New ideas in switches and relays	Jan p20
Electric products: here comes the Parade!	Jan p28
Computerized package speeds Canadair project	Feb p18
CAD/CAM: helping Canada to compete	Feb p20
Design office update: now and tomorrow	Feb p28
Fiber optics in a wired world	Mar p12
Modern systems bring greater efficiencies to materials handling	Aug p16
Innovative ideas for materials handling	Aug p21
Highlights to see at the IEEE Exposition	Sep p22
A status report on CAD/CAM applications ...	Oct p83
Shipboard system monitors and controls 70 bulk liquid tanks	Nov p24
Making the most of today's electric motors and controls	Dec p15
AC drive technology: an update	Dec p29

Fluid power

Seals and packings: meeting changes in fluid power needs	May p28
Custom press design earns export order	Jul p16
Fluid filtration and conditioning	Jul p20
Canada's Fluid Power and Controls Buyers' Guide 1981/1982	Jul p25
What's new in fluid power components	Nov p31

Materials

Cushioning system helps the handicapped	Feb p24
Fiber optics in a wired world	Mar p12
New needs spur interest in alloy steel wire	Mar p26
Use of coiled steel bar on the increase	Apr p16
Materials solve design dilemmas	Apr p30
New engineering alloys for the Eighties	Apr p38
Driving down auto weight	Jun p24
Rubber expansion joints reduce damage risk in piping systems	Aug p24
Rapid growth seen for advanced composites ...	Sep p18
Composites make a lighter fin for Lockheed ...	Sep p19
High carbon steel wire draws growing interest ..	Dec p35

Mechanical power transmission

Faster, more accurate bearing analyses	Jan p33
Bearing technology: an update on what's happening in an important field	Jun p17
Fine control of shaft speed helps spin a better yarn	Jun p30
Innovative ideas for materials handling	Aug p21
11 ways to improved power transmission	Oct p27
Mechanical Power Transmission Buyers' Guide 1981/1982	Oct p33
Shipboard system monitors and controls 70 bulk liquid tanks	Nov p24
Massive curved tooth spiral bevel gears transmit horsepower in the 6000 hp range ..	Nov p36

Miscellaneous

Electric products: here comes the Parade!	Jan p28
1981 Design Engineering Conference Preview ..	Mar p18
1981 Design Engineering Show Preview	Mar p19
Design Canada Award winners for 1981	Apr p20
Production Show '81: what to watch for	Apr p25
Modern systems bring greater efficiencies to materials handling	Aug p16
Innovative ideas for materials handling	Aug p21
Giant valves are part of Candu safety system ..	Aug p28
Industrial design points the route to product recognition	Sep p12

Design Engineering's index for 1981

Assembly

Assembly ideas: innovative fasteners and methods	May p17
Engineering adhesives: new tools for the design engineer	May p24
Robots on the rise	Nov p21
Retaining rings eliminate hazardous sealing of hydrants and save money	Dec p33

Careers

Job hunting: the story behind manpower news ..	Jan p48
The 1981 job market for engineers	Mar p56
Job hunting: how to wait productively	May p60
Job hunting: what to do when opportunity knocks	Sep p52
Need you pay for job hunting assistance?	Nov p52

Design office

Computerized package speeds Canadair project	Feb p18
CAD/CAM: helping Canada to compete	Feb p20
Cushioning system helps the handicapped	Feb p24
Design office update: now and tomorrow	Feb p28
Driving down auto weight	Jun p24
Industrial design points the route to product recognition	Sep p12
A status report on CAD/CAM applications ...	Oct p83

Electrical and electronic

The changing world of electronics	Jan p16
Microprocessor controls weld passes	Jan p17
Electronic system measures accurately	Jan p19
New ideas in switches and relays	Jan p20
Electric products: here comes the Parade!	Jan p28
Computerized package speeds Canadair project	Feb p18
CAD/CAM: helping Canada to compete	Feb p20
Design office update: now and tomorrow	Feb p28
Fiber optics in a wired world	Mar p12
Modern systems bring greater efficiencies to materials handling	Aug p16
Innovative ideas for materials handling	Aug p21
Highlights to see at the IEEE Exposition	Sep p22
A status report on CAD/CAM applications ...	Oct p83
Shipboard system monitors and controls 70 bulk liquid tanks	Nov p24
Making the most of today's electric motors and controls	Dec p15
AC drive technology: an update	Dec p29

Fluid power

Seals and packings: meeting changes in fluid power needs	May p28
Custom press design earns export order	Jul p16
Fluid filtration and conditioning	Jul p20
Canada's Fluid Power and Controls Buyers' Guide 1981/1982	Jul p25
What's new in fluid power components	Nov p31

Materials

Cushioning system helps the handicapped	Feb p24
Fiber optics in a wired world	Mar p12
New needs spur interest in alloy steel wire	Mar p26
Use of coiled steel bar on the increase	Apr p16
Materials solve design dilemmas	Apr p30
New engineering alloys for the Eighties	Apr p38
Driving down auto weight	Jun p24
Rubber expansion joints reduce damage risk in piping systems	Aug p24
Rapid growth seen for advanced composites ...	Sep p18
Composites make a lighter fin for Lockheed ...	Sep p19
High carbon steel wire draws growing interest ..	Dec p35

Mechanical power transmission

Faster, more accurate bearing analyses	Jan p33
Bearing technology: an update on what's happening in an important field	Jun p17
Fine control of shaft speed helps spin a better yarn	Jun p30
Innovative ideas for materials handling	Aug p21
11 ways to improved power transmission	Oct p27
Mechanical Power Transmission Buyers' Guide 1981/1982	Oct p33
Shipboard system monitors and controls 70 bulk liquid tanks	Nov p24
Massive curved tooth spiral bevel gears transmit horsepower in the 6000 hp range ..	Nov p36

Miscellaneous
